

RESOLUTION 04.2019-01 (A-20)
VULNERABILITY OF PHYSICIANS BY ONLINE RATING SERVICES

ISMS Board Action Taken on 06/22/2019

Adopted Substitute Resolution 04.2019-01 (A-20), as amended by the Board of Trustees:

RESOLVED, that ISMS establish a work group to address the vulnerabilities of physicians who are affected by online physician rating services.

Council on Economics Recommendation to ISMS Board on 06/22/2019

The Council on Economics opined that ISMS should develop guidance and resources for members to use in addressing or defending against unsubstantiated anonymous social media comments, which have the potential to ruin a physician's reputation and make them targets of such potential attacks. The Council recommended a work group as the preferred method of developing such resources.

The Council on Economics recommends that the Board of Trustees adopt Substitute Resolution 04.2019-01 (A-20) in lieu of Resolution 04.2019-01 (A-20) as follows:

RESOLVED, that ISMS establish a work group to address the vulnerabilities of online physician rating services.
