Council on Education & Health Workforce Recommendation to
ISMS Board on 01/25/2020

The Council expressed concern that treatment approaches for opioid addiction and substance use disorder are varied and complex, often requiring multiple modalities, and agreed that it may be unrealistic to require physicians in all subspecialties to be trained to deliver these services to patients.

The Council on Education & Health Workforce recommends that the ISMS Board of Trustees not adopt Resolution 01.2020-37 (A-20).
