Medical Legal Council Recommendation to ISMS Board on 10/22/2022

The Council was provided with a copy of the resolution, including relevant ISMS policy, the results of a member survey, and an ISMS white paper on alternative forms of dispute resolution. Council members were additionally directed to the AMA's resource "Medical Liability Reform Now!", which also discussed various alternative dispute resolution methods. The author did not participate in the discussion. The Council took note that the ISMS already has performed research on this issue which resulted in a white paper that is available on its website for access by members. Because this work has already been done, the Council recommends that this resolution not be adopted.

The Medical Legal Council recommends that the ISMS Board of Trustees not adopt Resolution 05.2022-05 (A-23).
